

JACOB HULL

SENIOR PRODUCT MANAGER

www.JacobHull.me | Sydney, Australia

PROFESSIONAL PROFILE

Product and program leader with 9+ years delivering complex, cross-functional platforms in live service environments across globally distributed teams. Experienced in shaping high-impact domains including Trust & Safety systems, compliance-driven features, and user-facing capabilities. Strong track record aligning engineering, product, design, legal, and data stakeholders to deliver scalable technical products from development through launch and live ops.

CORE COMPETENCIES

Cross-Functional Program & Product Leadership | Trust & Safety & Compliance Systems | Process Optimization
Product Roadmapping & Execution | Technical Platform & User-Facing Systems | Legal & Regulatory Collaboration
Distributed Program Delivery (EMEA / APAC / US) | Roadmap Planning & Release Management
Data-Informed Product Prioritization | Stakeholder & Executive Alignment | Scalable Operating Model Design

PROFESSIONAL EXPERIENCE

Riot Games | PRODUCER II

Sydney, Australia | 2025 – Current

- **Key Project: 2XKO** (Live Service, Social & Trust and Safety Platforms, Core Development, Certification, Launch)
- **Key Project: VALORANT** (Live Service, Personalization & Expressions)
- Product and delivery lead for Trust & Safety and social platform systems on 2XKO, shaping user-facing and compliance features across cross-functional teams in a globally distributed organization.
- Owned product direction and delivery of core reporting, enforcement, and moderation platforms for a simultaneous global launch across 5 major regions (NA, EMEA, APAC, LATAM, BR), successfully scaling infrastructure to support 500,000 unique users within the first week.
- Partnered with Legal, Compliance, and central engineering teams to define and implement data retention policies, automated moderation tooling, and integrate shared platform systems.
- Led cross-functional delivery from concept through Beta, Early Access, certification, launch, and live operations.
- Analyzed and leveraged Early Access user behavior metrics to optimize early-game flows, driving a 27% increase in player retention from Early Access into full launch.

ZA/UM Studio | SENIOR PRODUCER

London, England | 2022 – 2025

- **Key Project: ZERO PARADES** (Core full-cycle development)
- **Key Project: DISCO ELYSIUM** (Post-launch content, Mobile edition)
- Joined at the inception of ZERO PARADES, shaping product direction and establishing scalable delivery structures across a globally distributed organization from early R&D through full production.
- Restructured a ~70-person distributed developer base into aligned Agile feature teams, boosting production efficiency by 35%.
- Championed strategic roadmap prioritization to compress the delivery pipeline by 50% into a strict 2.5-year window, ensuring the self-funded, self-published title launched entirely within budget constraints.
- Managed and coached a 4-person production team with a 100% retention rate over 2.5 years, directly mentoring and driving the career progression of 2 Associate Producers to Mid-Level Producer roles.
- Integrated in-house QA into the development lifecycle and partnered with leadership on roadmap planning, scope definition, and resource allocation.
- Evaluated and onboarded external vendors to ensure alignment with product direction and long-term goals.

PROFESSIONAL EXPERIENCE CONTINUED

TT Games, Warner Bros. | ASSOCIATE PRODUCER

Knutsford, England | 2020 – 2022

- **Key Project: LEGO STAR WARS: The Skywalker Saga** (Core development, certification, launch)
- Joined TT Games from the tech sector to support delivery of large-scale titles under major licensed IP, contributing across the full lifecycle from pre-production through submission, certification, and post-launch operations.
- Directly managed a 35+ person multi-disciplinary division within a wider 100+ developer matrix organization, coordinating critical-path dependencies, external support vendor pipelines, and core milestone delivery.
- Contributed to the transition from discipline-based workflows to cross-functional Agile teams, improving collaboration and feature ownership.
- Partnered with external stakeholders (Lucasfilm, Disney, Warner Bros., LEGO) to ensure compliance with IP requirements and alignment with platform and brand standards.
- Supported post-launch releases, maintaining delivery cadence and stakeholder alignment in a live service environment.
- Drove roadmap planning, progress tracking, and cross-team reporting to maintain alignment across technical, creative, and stakeholder groups.

KPV LAB | PRODUCT MANAGER

Edinburgh, Scotland | 2017 – 2020

- **Key Project: Data Visualization & Platform Systems**
- **Key Project: Timeline Platform**
- Recruited as employee #4 to shape the product vision of an early-stage data visualization platform, scaling the cross-functional organization from 4 to 25+ developers cross-region following a successful angel investment funding round.
- Played a foundational role in defining product direction, designing core user flows and UX frameworks.
- Partnered with engineering teams to scope, prioritize, and deliver scalable front- and back-end systems, establishing the company's foundational Agile development workflows, continuous integration pipelines, and QA processes.
- Translated the core product vision into a comprehensive roadmap that successfully guided cross-site development pipelines between Edinburgh and Berlin teams.
- Co-authored technical product strategies and investor presentations that secured critical capital, directly driving the studio's international expansion and the launch of a new Berlin operation.
- Headed recruitment and directly managed a 4-person product team for 2 years, driving cross-site coordination between Edinburgh and Berlin while successfully mentoring 1 direct report into a promotion.
- Defined product requirements and priorities, translating user and business needs into actionable plans.

Aspirations Care | MENTAL HEALTH SUPPORT WORKER

Hereford, England | 2009 – 2013

- Supported individuals transitioning from secure facilities into independent living, working alongside social workers and clinical professionals to guide behavioral and lifestyle adjustment.
- Completed accredited mental health and behavioral support training to provide structured, goal-oriented transition coaching.
- Developed personalized transition plans, helping individuals build stability, resilience, and accountability in high-risk environments.
- Navigated complex interpersonal dynamics and crisis situations, strengthening skills in de-escalation, active listening, and structured support.
- Built strong foundations in performance-oriented coaching and psychological safety that continue to inform my leadership approach.

EDUCATION

Bachelor's Degree | English Literature | 2:1
Certificate of Higher Education | Humanities

University of Edinburgh | 2013 – 2017
Open University | 2010 – 2011
